

# Residence 9 Windows

THE  
RESIDENCE  
COLLECTION

THE ORIGINAL TIMBER ALTERNATIVE

COLOUR: COTSWOLD GREEN ON GRAINED WHITE

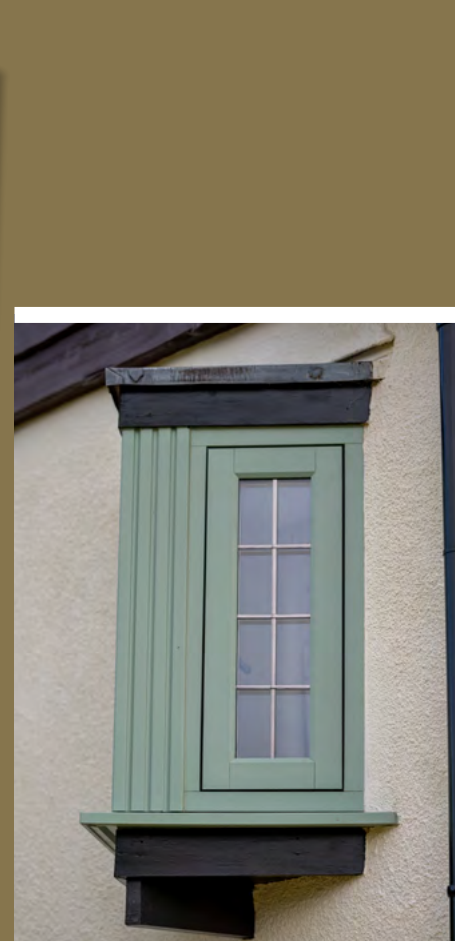

*Situated in the quiet village of Hannington in Northamptonshire, this beautiful home sits in with its historic surroundings and buildings of the village.*

Windows & Doors, The Way They're Meant To Be

The Residence Collection was chosen to replace the existing windows and doors, with 32 Residence 9 windows in Cotswold Green and Grained white internally, plus matching Residence 9 French doors enhances this beautiful home. The perfect partner for this home, offering beautiful aesthetics, high performance and low maintenance – all whilst keeping that traditional timber look.

R9 windows have been specifically designed to aesthetically replicate documented historical window designs from the 19th Century.

Furthermore, the glass sightlines are perfectly equal providing symmetry and style. The decorative 28mm glazing bead, and antique black pear drop handles and stays finish the stylish interior decor.

*The windows add to the appeal of the property, the mechanically jointed flush sash exterior with leaded glass is timeless and adds to the traditional look and feel.*

*Homeowner Quote...*

*“ I must say our installer carried out a magnificent job installing these windows, which thanks to the Residence Collection and Martindale Windows has greatly improved our home. ”*

HERITAGE | TRADITIONAL | AUTHENTIC

Proud to be designed and manufactured in the UK
